8760 Fastems

myFastems

BECAUSE YOUR MACHINES DESERVE TO RUN TO THEIR FULL POTENTIAL, AND BEYOND

Stay aware of your systems' health & status

Easy access via web-browser

Advanced support requests & faster response time

Insights for production optimization based on systems' data

Support throughout the whole system lifecycle

Access to the right tools when needed.

KEY BENEFITS

Higher Reliability

Easy decision-making with the support of your systems KPIs. Create spare part requests with a photo.

Higher Flexibility

Reduce system downtime by solving issues with our recovery instructions or send guided alarm based support requests.

Higher Predictability

Prevent unforeseen surprises in your production. Follow the recommendations for the system maintenance and be aware of the service history and future.
